INTRODUCTION

My name is Hristo Kolev, I am an international student from Bulgaria, currently living and studying in Eindhoven, Netherlands at Fontys University of Applied Science. The company “DuelSys inc.” contacted me about a desktop application and website about managing their tournaments.

COMPANY

The company “DuelSys inc.” is specialized in sport tournament sphere. They work with different sport associations (Badminton, Tennis, Table Tennis, etc.).

PROBLEM DESCRIPTION

The company wants a software solution (desktop application and website) to manage their tournaments. Helping them to create scheduling for the players easier.

PROJECT GOAL

The Application (website and desktop application) will help the company’s employees manages and controls different aspects in the company. The staff will be able to manage the company’s tournaments like creating new, editing or deleting them. The players will be able to access these tournaments, view valuable information from them and they will be able to register in them.

DELIVERABLES

1. URS
2. Software application(specify)
3. Project Plan
4. Test report

NON-DELIVERABLES

1. UML Class Diagram
2. Database Design
3. Test Plan

PHASING

- **Phase 1**

Name: Gathering Information

Milestone: Deliver Project Plan, URS, Test Plan, UML diagram

Timing: Week11- Week13(25.04.2022-19.05.2022)

- **Phase 2**

*Phase 2.1

Name: Implementation

Milestone: Deliver Desktop Application and Website

Timing: Week13 (19.05.2022-27.05.2022)

*Phase 2.2

Name: Unit Testing

Milestone: Deliver All Needed Unit Tests

Timing: Week14 (27.05.2022-03.06.2022)

*Phase 2.3

Name: Finalizing

Milestone: Making sure that everything is working properly

Timing: Week15 (03.06.2022-10.06.2022)
